

PurAcel®

INHALATION SOLUTION

PurAcel® Inhalation Solution is an innovative and effective therapy designed to combat the effects and symptoms of COPD and asthma. COPD, or Chronic Obstructive Pulmonary Disease is a disorder of the lungs marked by chronic shortness of breath and habitual coughing, accompanied by mucus production that worsens over time. PurAcel® Inhalation Solution uses mother nature's perfected medley of cytokines and growth factors to decrease inflammation, provide nourishment to the body, and nurture damaged tissue back to health.

NEXT GENERATION: Sterile Inhalation Solution
